

Developed Under the guidelines from

“CPR, Adult & Pediatric, with clicker feedback system, Rugged & Sturdy”

### Life Saving Simulator

- Reliable and economic choice for basic CPR training.
- Basic Billy show that it is not difficult to provide help and save lives through correct cardiac massage and ventilation technique.
- Anatomically correct and hygienic to use.
- The head is easy to tilt in order to open the airways for mouth-to-mouth and mouth-to-nose resuscitation.
- The thorax raises as the lungs are ventilated
- Mask Ventilation is also possible and Basic Billy comes with 10 lung bags and 1 additional face mask for hygienic reasons. Low priced disposable airways and a carrying bag ensure hygienic and easy care of the manikin.
- Even better, **Basic Billy is actually two manikins in one** as it can be used as either an **adult** or a **child** (of approximate age 12).
- 1 BLS simulator (torso) with spring for cardiac massage of adults
- 1 additional spring for cardiac massage of children (approximate age of 12)
- 5 lung bags, adult
- 5 lung bags, child
- 2 telescopic guides
- 1 additional face mask and inner head for hygienic artificial respiration
- 1 carrying bag
